

Dated: July 30th 2013

Himalayan University
India

This is to make a formal announcement that Himalayan University has recently been approved for Candidacy by International Accreditation Organization (IAO).

Himalayan University's Candidacy approval came in light of a successful evaluation held by IAO's panel of chapter members and our batch of internal auditors who deemed the quality of education offered to be satisfactory and compliant with the quality guidelines IAO upholds.

IAO will overlook the Candidacy profile of this institute for the validity period of six months, before the end of which they would be required to complete the accreditation process and have an on-site visit conducted by an IAO appointed professional. Currently, Himalayan University has the complete authority to use IAO's branding and logo on their official website and printed material.

Any individual(s) or organization(s) who would like to confirm Himalayan University's Candidacy status or have any disputes regarding the education offered at this institute can feel free to contact IAO directly for clarification on the matter.
